

MUHAMMAD KASHIF

ANDROID DEVELOPER

293 A-1 Gulberg III Lahore | infokashifmk@gmail.com | +92 3045045624

Highly skilled Android Developer with over 2 years of experience in designing and developing robust mobile applications. Proven track record in delivering high-quality, user-friendly apps with a keen focus on performance optimization and user experience. Proficient in Java, Kotlin, and Android SDK, with a passion for staying updated with the latest industry trends. Seeking to leverage my technical skills and creativity to develop innovative solutions in a challenging role.

AREA OF EXPERTISE

- Proficient in MAD
- Database Management
- Custom UI/UX Design
- API Integration
- Lifecycle and Architecture
- Testing and Debugging

KEY ACHIEVEMENTS

- Successful Deployment of Multi-Functional Applications:** Delivered complex Android applications with features such as user authentication, real-time database integration, barcode scanning, and notification systems, meeting tight deadlines and client requirements.
- Streamlined User Experiences:** Designed and implemented custom UI/UX solutions for multiple apps, achieving a 30% increase in user engagement and receiving positive feedback for intuitive and professional interfaces.

PROFESSIONAL EXPERIENCE

Virtual Art Studio Application:

- Developed an Android app for artists and designers, enabling users to create, edit, and share digital artworks. **Nov 2024 - Present**
- Implemented custom drawing tools, layer management, and export functionalities.
- Focused on providing a seamless user interface and real-time performance optimization.

Grocery Management System:

Sep 2024 - Oct 2024

- Built a comprehensive grocery management app with inventory tracking, barcode scanning, and recipe suggestions.
- Integrated Firebase for real-time data storage and notifications for low stock alerts.
- Designed user-friendly layouts for inventory management and shopping list creation.

Zakat Automation Donation System:

Jan 2024 - May 2024

- Designed an app to streamline Zakat calculation and donations, ensuring compliance with Islamic principles.
- Included features such as user registration, Zakat calculation tools, and payment gateway integration for secure transactions.
- Focused on accuracy, security, and accessibility to facilitate charitable giving.

EDUCATION

Bachelor of Information Technology

Jan 2019 - May 2024

Virtual University

- Relevant project management and application development courses.

ADDITIONAL INFORMATION

- Languages:** English, Urdu, Punjabi.
- Certifications:** Professional App Development from Google, Web Development, Graphics Designing.
